1.	Background para 2/line 3 of nuclear ... (e.g. the Covid-19 pandemic, war situation , etc.) ...	Recent global events have shown that war situations may affect the availability of personnel, impair communication systems, and compromise access to facilities. Consequently, War situation can create significant disruptive conditions that directly impact emergency preparedness and response arrangements at nuclear facilities. Hence, War situation may also be considered like COVID-19.	To be checked internally			It is to be considered during the drafting of the document

1	3. Justification	In terms of additional topics, the revision of GSR Part 7 will introduce concepts based on, or feedback from, past events (without naming these events), for instance: some events should be included	The 3 rd paragraph (In terms of additional topics...) is incomplete (i.e. not providing examples).	Accepted, para 3 deleted			
2	3. Justification	In terms of added value expected, this revision will enhance the overall clarity of the content and “userfriendliness” by implementing the following proposals made by the EPRESC WGs: The earlier processes are attached as Annex N to this DPP.	It is also suggested to reflect the summaries provided in Annex N, regarding earlier justification and findings from EPRESC 15-17.		Accepted, text was modified to reflect the content of Annex N (renumbered as Annex 3).
