1.	Para 7.6. 1 <sup>st</sup> bullet 9 <sup>th</sup> bullet	<p>Modify as follows;</p> <p>The decision of an operating organization to pursue long term operation is typically based upon an evaluation (a feasibility study) [23] that addresses:</p> <p>- Strategic elements, such as the need for electrical power, <u>an economic assessment</u> and issues concerning diversity in supply, <u>with due consideration that safety takes precedence over electricity production.</u></p> <p>- .....</p> <p><del>An economic assessment</del></p>	When safety standards address aspect on electricity production, safety aspect shall be followed.
