Comment No.	Para/Line No.	Proposed new text	Reason	Accepted	Accepted, but modified as follows	Rejected	Reason for modification/rejection
1.	Title	<b>Leadership and Management for Safety in Predisposal and Disposal of Radioactive Waste</b>	To make the title consistent with GSR Part 2 (that is under development).	To be discussed at Safety Standard Committees			
2.	General	<b>Leadership may also be addressed in the document as per proposed requirement 2 of GSR Part 2.</b>	To make the document consistent with GSR Part 2.	x			
3.	General	The contents should cover the new GSR Part 2.	The contents proposed seem in line with the existing GS-R-3. However, since GS-R-3 is being revised and will be replaced with GSR Part 2, the contents of the guide may accordingly be made consistent with the new document.	x			
4.	Item 5, third bullet of the contents of DS	The heading may be “Process Management and Control” instead of “Process Management and Control of Product”	The predisposal and disposal facilities may not produce any product.		x Heading will be discussed during the development of DS477.		

# DS477 – The Management System for the Predisposal and Disposal of Radioactive Waste

Comment No.	Para/Line No.	Proposed new text	Reason	Accepted	Accepted, but modified as follows	Rejected	Reason for modification/rejection
5.	General	Two specific requirements are established for safety culture in GSR Part 2 (that is under development); requirements 12 and 13. The proposed guide may consider these requirements and the downstream explanations in various sections, as applicable.	To make the document consistent with GSR Part 2.	x
